Mr William Brewster  
Cambridge Mass.

Dear Sir:

I have just received a letter from, Mr O. W. Knight in which he stated that you wished to see my skins of Scotts Seaside Sparrow, for verification of the identity, he also wished me to send the skins of the Water Thrush, and Bay-breasted Warbler, but remember that the Warbler skin was not taken by me. But the Seaside Sparrow, and the Water Thrush, were taken by myself at this place, I send the skins by this mail

Yours Respectfully  
Walter E. McSain
